Description
Village life sets the tone in Anarita, where restaurants and cafés lie within walking distance. Here, a residential field of 4,348 m² offers level ground and room for a home in the Paphos district. The land has an irregular shape and an even surface, so it is easy to imagine a house set across it, with neighbours and village tables only a stroll away. It fronts a road, giving it direct road access. Paphos International Airport is a short drive away, which keeps journeys simple. The sale is for a 1/3 share of the field. Level residential land with direct road access, an easy walk from the cafés and restaurants of Anarita.
