For Sale : **€ 115,000**

Description
Mathiatis village life is close at hand here. The village centre is only a short distance from this residential field, and the motorways towards Nicosia and Limassol are a drive away, so the capital and the coast stay within comfortable reach. The field is large, 27,834 m² in total, and sits in a residential zone. It has direct road access along a dirt road that runs the length of one border. The field is to be divided into plots, and a distribution agreement is in place. Under that agreement, this share relates to a future plot of about 4,565 m². That is room for a home of up to two floors, with the village a short distance away and its neighbour Lythrodontas a short drive beyond. It is a plain and practical starting point for a future house in a residential setting by a Cypriot village. The sale is of a one-fifth share of the field.
