For Sale : **€ 25,000**

Description
Agios Nikolaos is a lived-in part of Lakatameia with an easy suburban rhythm. Restaurants and cafés are within walking distance, and the main roads and motorway junctions are easy to reach for the rest of Nicosia and beyond.

This residential land covers 6,376 m² in total and has direct access from a registered road, and a main road is close by. Its zoning points to a plain and welcome use: homes, in a setting already shaped by the neighbourhood around it.

Picture slipping out for a morning coffee at a café a short walk away, then returning to a corner of the suburb that is part of the town without being lost in it. A share here is a stake in that everyday ease, in a residential area with a settled feel.

The sale is of an undivided share of the land, not the whole plot.
