For Sale : **€ 320,000**

Description
Set in an established residential area of Strovolos, this field in Chryseleousa sits right next to schools, with supermarkets and shops within walking distance. Daily errands stay close to home here, and the main roads and motorway junctions are easy to reach when the wider city calls.

The land is flat and neatly rectangular, with direct road access along its frontage. That simple, regular outline gives welcome flexibility when it comes to planning, and the residential zoning leaves room for a home of up to two floors. It is easy to picture a family house rising here, a short walk from the school gate and the corner shop.

Lakatameia is a short drive away, so the neighbouring suburb is within easy reach too.

The sale is a one-third share of a 3,837 m² field, corresponding to about 1,279 m².

Level ground, a road at its edge and a settled neighbourhood all around: a sound starting point for a home in Strovolos.
