For Sale : **€ 595,000**

Description
In Tseri, with neighbouring Lakatameia close by and the town centre a short drive away, this large field of 11,697 m² sits within easy reach of everyday life in the Nicosia district. It is a setting that keeps the town and its rhythm comfortably near.

The land carries two uses. About half lies in a commercial zone and about half in a residential one, which gives room for business on one part and room for a home on the other. Frontage along a public road gives the field direct road access, and its almost regular shape with a gentle slope makes it an uncomplicated piece of land to picture plans on.

Standing here, you sense how the town and the open ground meet. Lakatameia lies close by, Strovolos is a short drive further, and the field itself offers a generous canvas for a blend of living and working. The sale is for a 63% share of the field.

A large, mixed-use field with its own road frontage, close to Tseri's centre: an appealing balance of location and flexibility.
