On the peaceful outskirts of Agios Tychonas, a large residen...

For Sale : **€ 199,000**

Description
On the peaceful outskirts of Agios Tychonas, a large residential field of 8,903 m² meets a river stream along its western boundary. The setting is calm and natural, a green corner of the municipality where the stream gives the land a gentle edge.

The field lies in a residential zone, with room for a home of up to two floors. The village centre is a short drive away for everyday errands and a coffee, and the beaches are within a short drive too, so the coast stays an easy part of life here.

The field is landlocked and has no direct road access. The sale is of a one-quarter share of the whole field.

A streamside stretch of residential land in a peaceful corner of Agios Tychonas, with the village and the sea both close at hand.
