Description
Village life in Frenaros sets the tone here. This is a large residential field of 9,160 m² in the Famagusta district, with the village primary school a short distance away and everyday amenities close by.

Zoned for residential use, the land offers room for a home with generous open ground around it. The land has no direct road access.

Beyond the village, the nature spot of Paralimni Lake is a short drive away, a green escape for slow afternoons. The neighbouring villages of Sotira and Liopetri are also a short drive from Frenaros, so the wider area is close at hand for shopping, dining and daily errands.

A sizeable piece of residential land in Frenaros, with the village around it and the lake nearby, it makes a visit truly worthwhile.
