Description
Two agricultural fields in Pegeia, in the Paphos district, come together as one holding with a combined area of 2,537 m². Their agricultural zoning suits farming and planting, giving room to cultivate across both parcels. The land lies within Pegeia, away from the centre, with the village of Kathikas a short drive away. The fields have no direct road access. Together they form a sizeable stretch of farmland to work, plant or keep as agricultural land.
