Everyday Nicosia life gathers around this
residential field...

For Sale : **€ 195,000**

Description
Everyday Nicosia life gathers around this residential field in the established suburb of Strovolos. A school stands right next door, and supermarkets and shops are within walking distance, so the small errands of the day can be done on foot. The centre of Nicosia and the highway are both easy to reach.

The field covers 2,927 m² and fronts two roads, giving it direct road access and a generous outline to work with. Its residential zoning points to its natural purpose: room for a home, shaped around your own priorities from the very first sketch. Picture mornings that begin with the school run next door and end with an evening stroll to a neighbourhood café.

A setting like this brings together a residential suburb with a neighbourhood feel and an easy link to the wider city. It is a place to plan with care, where daily life and the rest of Nicosia both stay within comfortable reach.

The sale is for a 33% share of the field.

A residential corner of Strovolos, close to the everyday life of the suburb.
