For Sale : **€ 375,000**

Description
Maroni's village centre, with its supermarkets and shops, lies within walking distance of this large residential field, and the beaches along the coast are only a short drive away. Village life on foot and the sea close at hand make an easy, everyday rhythm.

Covering 11,706 m², the land sits in a mainly residential area, close to the village football field. Water supply, electricity and telecommunications already reach the property, so the essentials are in place from the first day of planning.

Its residential zoning offers room for a home designed around your own ideas, with generous space around it and the familiar streets of the village close by. Larnaca International Airport is about 25 km away, which keeps trips abroad and visits from family straightforward.

This is a genuine village address rather than a resort, with a sizeable piece of land waiting to be shaped into a place of your own.
