For Sale : **€ 62,000**

Description
Lythrodontas keeps the authentic, unhurried character of a Nicosia district village, and this sizeable residential plot offers a way to become part of it. With 1,688 m² of land zoned for residential use, there is room for a home planned around the way you want to live.

Building your own home here gives you control over the layout, the materials and the finish, from the first sketch to the last detail. The size of the plot leaves space to think about how the house sits on the land and how each room should feel.

Daily life stays simple. The village centre is a short drive away, and supermarkets and shops are close by too, so errands and an easy coffee in the village fit naturally into the day. Picture finishing a morning in town and heading back to land that is entirely yours, with the home you imagined gradually taking shape.

A sizeable piece of residential land in a real Cypriot village, ready for the home you have in mind.
