For Sale : **€ 200,000**

Description
Village life sets the tone here. This large residential field lies close to the centre of Analiontas, with schools within walking distance. The everyday rhythm of the community is part of the setting from the very first visit.

At 11,295 m², the land gives generous room for a home of your own design, one planned around the plot rather than squeezed onto it. A long stretch of its boundary runs along a road, so the field has direct road access and an open, welcoming front to build behind.

Beyond the village, Tamasos Lake is a short drive away, a natural spot for a walk or an afternoon outdoors. The neighbouring communities are within easy reach too. It is easy to picture mornings that begin with the school run on foot and weekends spent by the water.

A sizeable piece of residential land, close to the heart of its village, ready for someone to shape it into a home.
