For Sale : **€ 180,000**

Description
Just a short way from the centre of Analiontas, this large residential field of 11,299 m² offers room for a home woven into the everyday rhythm of village life. Schools lie within walking distance, and the water and open landscape of Tamasos Lake are a short drive away, ready for an unhurried afternoon outdoors.

The land meets a registered road on two of its sides, so it has direct road access. Its residential zoning points plainly to a home, set among the familiar surroundings of a village with its own character. The neighbouring communities of Kataliontas and Margi are within easy reach for the small errands and visits that fill a week.

A distribution agreement is in place. The sale covers a 91.15% share of the field.

What stays with you is the simple promise of the place: a sizeable piece of residential land close to the heart of Analiontas, with space to imagine the home you would build here.
