centre, and th...

For Sale : **€ 110,000**

Description
Life in Analiontas gathers around its village centre, and these fields lie close to it. A school and local restaurants are near at hand. Shops and cafés are a short drive away, and so is Tamasos Lake, a natural spot for an unhurried afternoon.

Three residential fields together cover 12,538 m², a sizeable stretch of land with utility services in place. The residential zoning gives room for a home shaped around its village setting, with the everyday rhythm of the community close by.

Picture a morning coffee in the village, an afternoon by the lake and an evening back on land of your own. It is a setting where village life is part of the day.

A distribution agreement is in place for the fields. The sale is of a 50% share. Close to the heart of Analiontas, this is land with village life on its doorstep.
