For Sale : **€ 62,000**

Description
Three adjacent agricultural fields make up this sizeable holding of 43,145 m², which spans Fyti and Kritou Marottou in the Paphos district. Because the fields lie side by side, they can be worked as one continuous area of farmland.

The land is a short distance from the centre of Fyti and close to Kritou Marottou. The village of Milia is also a short drive away. Its agricultural zoning suits farming and planting. This is a large block of farmland that spans two neighbouring Paphos villages.
