Description
Three adjacent fields come together here to form a single holding of 18,731 m² within Agioi Vavatsinias, in the Larnaca district. Lying side by side, they make one large, continuous piece of land rather than scattered plots.

The village centre is a short drive away, and the neighbouring villages of Odou and Melini are also within a short drive. The land lies within a protection zone. It is a sizeable, unbroken block of ground in the Agioi Vavatsinias area, held together as one.
