Description
Out in the farming country around Fterikoudi, in the Nicosia district, this agricultural field covers 9,820 m² of land zoned for farming. It sits a short drive from the village centre, and the neighbouring villages of Platanistasa and Askas are also a short drive away. The Astromeritis – Evrychou motorway serves the wider region.

Its agricultural zoning makes it suited to cultivation and planting, or to adding to an existing rural landholding. A good-sized piece of farmland in the Fterikoudi area.
