For Sale : **€ 750,000**

Description
Close to the heart of Nicosia, in the residential quarter of Agioi Konstantinos and Eleni, two apartment blocks share a single plot in a convenient urban setting. Cafés, restaurants and everyday shops are within walking distance, and the city centre is close at hand, so daily errands and an evening out can both begin on foot.

Together the two blocks hold nine apartment units, built in 2010 on land zoned for homes. The buildings are incomplete.

The neighbourhood carries the appeal here. It is a lived-in part of the capital, where the rhythm of city life sits right around the corner, and Strovolos is only a short drive away. Two blocks and their apartments in this central setting offer a substantial footprint in one of Nicosia's established residential quarters.

The sale is a 59% share of the property, covering several floors across the two blocks. Nine units, two buildings and the life of central Nicosia within easy reach on foot.
