Description
Among the high-quality homes of Agios Georgios in Latsia, this residential field sits just across the street from a school. It lies in a neighbourhood shaped by well-built residential developments, with Strovolos close by and easy access to the motorway that links Nicosia and Limassol.

The land covers 1,459 m² and has an almost triangular shape. Its residential zoning gives room for a home of up to two floors, a chance to plan a house around the way you want to live, in a setting where good homes already set the tone.

Picture school runs that take no more than a few steps across the road, a short drive to supermarkets, cafés and a park, and both Nicosia and Limassol within comfortable reach for work or a weekend away. Everyday life here stays close to home, while the wider island remains easy to explore.

A residential field in a well-regarded corner of Latsia, ready for the home you have in mind.
