Description
Set right next to the Nicosia–Limassol motorway in Nisou, these five adjoining fields front a public road and have direct road access. Latsia is a short drive away, and the wider area mixes farmland with warehouses and industrial units.

Part of the land lies in an agricultural zone suited to farming or planting. Another part falls within a protection zone. Electricity, water and telecommunications could potentially be brought to the land. Together, the fields form one connected agricultural holding of 89,420 m².
