

For Sale, Land, Plot, Nicosia

In Agios Antonios, within Nicosia itself, this land sits rig...

For Sale : **€ 6,180,000**

Description
In Agios Antonios, within Nicosia itself, this land sits right beside the everyday life of the city. Restaurants and cafés, supermarkets and shops, and public service offices are all next door, and schools are within walking distance.

The sale brings together three parcels. Two are zoned for commercial use, and the third is set aside for town-centre uses. Together they offer a setting where a business can take its place among the shops and services the neighbourhood already relies on.

The walled heritage heart of Nicosia is a short drive away, as is neighbouring Strovolos, with parks, sports venues and medical centres also close by.

Three parcels where the city comes to life, with commercial use at their core.
