Description
In Agios Mamas, Lakatameia, where homes and businesses sit side by side, two adjoining fields come together as one large, level holding of 14,620 m². Shops, cafés and restaurants are within walking distance, and neighbouring Strovolos is close by.

The land offers two uses. The larger parcel lies in a residential zone, with buildings of up to two floors allowed. The smaller parcel is commercial, with up to six floors allowed. The surface is flat and even across both fields, and the land has road access.

Picture a home taking shape on the residential side while the commercial parcel offers room for business, all within a neighbourhood where everyday needs are close at hand. Flat, sizeable and set amid the daily life of Lakatameia, this land gives your own plans a generous canvas.
