

For Sale, Land, Field, Nicosia, Latsia, Agios Georgios

Within Latsia, in the Agios Georgios quarter, a large field...

For Sale : **€ 1,900,000**

Description
Within Latsia, in the Agios Georgios quarter, a large field of 19,250 m² spreads across gently sloping ground, with schools right beside it. Around it, open parcels sit alongside scattered homes, an area where the landscape still breathes between the houses.

Most of the land lies in a residential zone, where building of up to two floors is allowed. That gives room for a home on generous ground, with the slope of the land shaping the setting. The remaining part falls within a special-use zone.

Everyday life stays within easy reach: the town of Latsia surrounds the field, and neighbouring Lakatameia is a short drive away. Having schools next door adds to the residential feel of the neighbourhood. The field has no direct road access.

A sizeable stretch of sloping land in Latsia, where a next chapter could begin.
