Description
In the Agioi Konstantinos and Eleni quarter of Dali, this commercial plot enjoys good links to the Nicosia–Limassol motorway, the route that ties this growing corner of the Nicosia district to the wider region.

At 5,219 m², the land offers a sizeable canvas for a business. It has direct road access on two sides: one boundary runs along a road, and a second follows a quieter dead-end road. That gives you more than one way in and a broad face to the street. The commercial zoning points plainly to business use, with up to three floors that may be built.

The immediate surroundings are made up of residential developments, so a business here would sit among homes and the daily life of the neighbourhood. Dali's industrial area lies close by, and Latsia is a short drive away for wider shopping and services.

With its generous size, two road frontages and easy reach of the motorway, this is a versatile piece of land in Dali, ready for a business vision to take shape.
