For Sale : **€ 1,630,000**

Description
Close to the Nicosia–Limassol motorway, this agricultural field in Nisou covers 22,470 m² and has a fairly regular shape. A long frontage gives it direct road access. Electricity, water and telecommunications can potentially be brought to the land. The surrounding area combines farmland with the warehouses and industrial units of the Dali industrial area, and Latsia is a short drive away. This is a sizeable, regularly shaped field with its own road frontage, zoned for agricultural use.
