

For Sale, Land, Field, Nicosia, Dali, Panag Evangelistria

On the edge of Dali, in the Panagia Evangelistria
quarter, t...

For Sale : **€ 1,300,000**

Description
On the edge of Dali, in the Panagia Evangelistria quarter, this land lies within the Dali industrial zone, surrounded by existing industrial developments. With 13,567 m² across two neighbouring fields, it offers real scale for business use in a setting already shaped by industry and trade.

The ground has a smooth, gently sloping surface and an irregular shape. Water, electricity and telecommunication services can potentially be connected to the site. The land has no direct road access.

The wider area keeps everyday needs close: the village of Nisou is a short drive away, and the ancient site of Idalion is nearby too, a reminder of the long history of this corner of Nicosia district.

The sale comprises one whole field and a 667/1045 share of the adjacent field.

A large holding in the heart of an established industrial neighbourhood, where business use is the natural fit.
