For Sale : **€ 1,200,000**

Description
In Geri, among the detached and semi-detached houses of a residential suburb of Nicosia, four fields offer a combined 12,841 m² of land to shape around a home. The neighbourhood is already settled and lived in, giving the land a familiar, homely setting rather than an isolated one.

The land lies partly within a residential zone, where a home of up to two floors may be built, and partly within a protection zone. Electricity, water and telecommunications can be connected. Two of the fields have direct road access, while the other two have no direct road access.

Everyday life reaches beyond the village with ease. Athalassa Lake, one of the area's best-loved nature spots, is a short drive away for an unhurried walk by the water, and Latsia is close by too. It is easy to picture a home here, part of a growing residential community, with the calm of the lake never far off.

A sizeable stretch of Geri, with room for a home in a residential neighbourhood and the lake within easy reach.
