For Sale : **€ 1,200,000**

Description
Among the working premises of Latsia's Agios Georgios quarter, three adjoining fields come together as one sizeable stretch of industrial land. The neighbourhood is made up of commercial and industrial developments, so a business here would sit among others of its kind. Together the fields cover 5,074 m², with ample ground for business premises in line with the industrial zoning.

The land fronts a registered road along one side, which gives it direct road access and a long frontage to plan around. Picture deliveries arriving straight off the road and your own premises standing alongside the established businesses around it.

The surrounding area enjoys easy access to the motorway, and neighbouring Lakatameia is a short drive away, which keeps both suppliers and customers within comfortable reach.

Three fields side by side in an industrial setting, with road frontage and the motorway close at hand, make a practical base for business in Latsia.
