In the Agios Vasileios quarter of Strovolos, a large and lev...

For Sale : **€ 1,150,000**

Description
In the Agios Vasileios quarter of Strovolos, a large and level field sits among open parcels and scattered homes. It offers a generous sense of open ground while the life of the town stays close by.

The land covers 7,089 m² in a neat rectangle, with a flat, even surface that is easy to understand at a glance. It has direct road access along its frontage. The residential zoning gives room for a home of up to two floors.

Picture a family home taking shape on this open ground, with the area's scattered houses as neighbours. A medical centre lies within walking distance. Schools and everyday shops are a short drive away, so the routines of daily life are never far off.

A broad, even field in a residential part of Strovolos, where open land and the ease of town living meet.
