For Sale : **€ 1,130,000**

Description
Close to the heart of Pigenia, with the sea not far off, this holding of eight adjoining fields offers a large stretch of open land in a landscape-led setting. Its surroundings are mostly undeveloped parcels, with a scattering of homes, so the countryside still sets the tone. Together the fields cover 68,614 m², a sizeable piece of ground that reads as one connected whole rather than scattered plots. Road frontage on two sides gives the land direct road access. The land is zoned partly for agriculture and partly for residential use. That means room for farming on the agricultural part and room for a home on the residential part, all within a single holding. Beyond the fields, the village centre is close by for daily needs, and Pomos Reservoir is a drive away for open water and walks in nature. It is a place where village life and the wider landscape sit side by side, with space to shape plans at your own pace.
