On the edge of Dali, in the Panagia Evangelistria quarter, a...

For Sale : **€ 892,000**

Description
On the edge of Dali, in the Panagia Evangelistria quarter, a sizeable field of flat, even ground sits among the area's industrial developments, zoned for industrial use and surrounded by neighbours who already work this way. It is a setting shaped for business. The field covers 8,789 m² in an oblong shape, and its level surface keeps things simple when thinking about how the land could serve an industrial or business purpose. Water, electricity and telecommunications can potentially be connected. The field has no direct road access. Life beyond the work site is close at hand. The village of Dali is a short drive away, with its shops, cafés and everyday services, and the heritage site of Idalion lies within a short drive too, adding a touch of history to this corner of Nicosia district. The sale is of a 419/450 share of the field. Level ground, industrial zoning and an established industrial neighbourhood come together here, leaving a large, flat field ready to be weighed for the business it could one day hold.
