Agios Georgios lies within Latsia, where open parcels still...

For Sale : **€ 871,000**

**Description**
Agios Georgios lies within Latsia, where open parcels still sit between scattered homes and the neighbourhood keeps a gentle, unhurried character. Here, two fields offered together make up 8,669 m² of residential land, a sizeable setting in which to imagine a home of your own.

The residential zoning gives the land a clear general use: room for a home of up to two floors, with undeveloped parcels and the occasional house as neighbours. The land has no direct road access.

Daily life stays close. Schools and cafés are within walking distance of the area, Strovolos is nearby, and the green surroundings of Athalassa Lake are a short drive away for a morning walk or a slow weekend afternoon.

Two fields, generous room and a settled corner of Latsia around them: a place where a future home can begin to take shape in your mind.
