Description
In Anavargos, a Paphos neighbourhood where homes sit alongside a handful of commercial buildings, this 1,877 m² field offers a sizeable piece of ground with everyday life close at hand. The International School of Paphos is within walking distance, and Paphos General Hospital is a short drive away.

The land has direct road access along a generous frontage, and water, electricity and telecommunications can be brought to it. Part of it lies in a commercial zone and part in a residential zone, and both parts allow buildings of up to three floors.

That mix gives the land real flexibility. One part could take business premises, while the residential part offers room for a home. Picture a family home with the school a short walk away, or premises set in a mixed neighbourhood of homes and businesses.

A well-placed field where location, flexibility and a long road frontage come together.
