For Sale : **€ 690,000**

Description
Just back from the sea in Agios Theodoros, two adjoining fields come together as one sizeable holding of 11,920 m² in a touristic zone. Around it, open undeveloped land sits alongside a scattering of holiday homes, and the village of Maroni is a short drive away.

The touristic zoning gives the land a clear direction. Local planning allows a hotel of up to three floors, or a tourist village or houses of up to two floors. Access to the land is by a right of way across neighbouring parcels.

With the sea moments away and room for tourist use, this is a large stretch of coastal land with a clear purpose.
