For Sale : **€ 880,000**

Description
In a residential part of Strovolos, with schools right next door and the village centre within walking distance, these two semi-detached houses offer family living twice over.

Each house follows the same well-balanced plan. On the ground floor, an open-plan kitchen, dining and living room brings the day together, with a guest toilet close at hand. Upstairs are four bedrooms, two of them en-suite, along with a family bathroom, and below lies a basement for extra space. A veranda gives a place to step outside as the evening settles in.

Daily life keeps an easy rhythm here. The school run is a matter of steps, and supermarkets and shops are a stroll away, so errands rarely call for the car. The wider area is made up of homes, and main roads are within easy reach.

Both houses are currently occupied. Side by side on one plot, they offer two generous family homes in the heart of a Nicosia neighbourhood where everything you need is close by.
