For Sale : **€ 640,000**

Description
With the centre of Polis close at hand and the beaches a short drive away, this corner of Prodromi offers an easy, relaxed coastal pace of life. Cafés and restaurants sit right beside the land, and the village centre is within walking distance, so everyday life stays close by.

The plot covers 4,348 m² of residential land and fronts registered roads on two of its sides, giving it direct road access. A planning permit is already in place for 13 houses and a swimming pool, and the zoning allows homes of up to two floors.

The neighbourhood blends homes and holiday developments with plots still waiting for their first buildings. Latchi is a short drive along the coast, and Paphos International Airport is about 35 km away. Plans for the site can follow the approved scheme of houses around a pool. The land also leaves room to shape a single home to your own design.

Generous land, approved plans and the life of Polis on the doorstep make this a place to start building something of your own.
