

For Sale, Land, Field, Nicosia, Pigenia

Sea views and forest-covered surroundings set the scene for...

For Sale : **€ 630,000**

Description
Sea views and forest-covered surroundings set the scene for this sizeable residential field outside Pigenia village, close to the little fishing shelter at Kato Pyrgos. Here the countryside opens out and the coast is never far from sight.

At 21,740 m², the land has an irregular outline and gently sloping ground, and from it the view carries across the surrounding area to the sea. Forest land and undeveloped parcels lie all around, with only a scattering of homes nearby, so the setting keeps a natural, open character and the sea air feels close at hand.

Residential zoning gives room for a home of up to two floors, where a morning coffee could come with the sea on the horizon. The village centre, everyday shops and cafés are a short drive away, and Mansoura is also within easy driving distance.

The land has no direct road access. Not all utility services, such as water, electricity and telecommunications, reach it yet.

A large stretch of sloping countryside with the sea in view, near a small fishing harbour.
