

For Sale, Land, Field, Nicosia, Deftera Pano

Beyond the centre of Pano Deftera, in a setting of homes and...

For Sale : **€ 612,000**

Description
Beyond the centre of Pano Deftera, in a setting of homes and open parcels, four adjoining fields come together as one large piece of residential land of 8,179 m². The ground is flat and even, with a regular shape, so the whole site reads clearly as you walk it, with room for a home to take shape on residential land. Water, electricity and telecommunications can be connected. The land has no direct road access. Daily life stays within reach. Kato Deftera and Lakatameia are a short drive away, and supermarkets and shops are close at hand for everyday needs. It is a village setting with the wider Nicosia district around it, and a calm alternative to busier town living. Three of the fields are offered in full, together with a 4/5 share of the fourth. Level ground, a generous size and a residential village setting give this land its character and its promise.
