For Sale : **€ 642,000**

Description
In Nisou, in the Nicosia district, three fields combine to give 12,679 m² of land beside the Nicosia–Limassol motorway, with Latsia a short drive away. Two of the fields sit side by side.

Part of the land is agricultural and suited to farming, while another part lies in a protection zone. One field has direct road access; the other two have no direct road access. Warehouses, industrial units and farmland make up the surrounding area, and the land has the potential for electricity, water and telecommunications connections. The sale includes a 1/3 share of one of the three fields. Together, the fields form a sizeable stretch of land in Nisou.
