Among the showrooms and offices of Agios Mamas in Lakatameia...

For Sale : **€ 590,000**

Description
Among the showrooms and offices of Agios Mamas in Lakatameia, this commercial field sits in a neighbourhood built around everyday business. Supermarkets and shops stand right beside it, and cafés, restaurants, pharmacies and public service offices are all within walking distance.

The land is a flat, even rectangle of 900 m². It fronts a main avenue and also has a frontage on a second road, so it enjoys direct road access from two sides. That kind of exposure gives any future business a clear face to the street.

Its commercial zoning points plainly to business use. The buildings around it follow the same pattern, with showrooms on the ground floors and apartments or offices above. From here, the centre of Nicosia and the city's main municipalities are within good reach, and Strovolos lies close by.

Level ground, two frontages and a setting already shaped by commerce make this a piece of land that speaks clearly about what it can become.
