For Sale : **€ 580,000**

Description
Village life sets the tone here. A short distance from the centre of Pyrga, this large, level field sits among homes and open parcels of land. The setting is residential, with a slower pace and room to breathe.

The land covers 11,205 m² of flat, even ground in a residential zone, with room for a home of up to two floors. It has direct road access, with frontage along roads on three of its borders, so arriving and building need little thought. Water, electricity and telecommunications can be connected to the land.

Picture a home taking shape on this open ground, with the shops, cafés and everyday rhythm of the village close at hand. Larnaca International Airport is about 15 km away for journeys further afield.

Generous, level land on the edge of a welcoming village, with the space to plan a home exactly as you imagine it. Make it yours.
