Close to the fishing shelter of Kato Pyrgos, on the edge of...

For Sale : **€ 575,000**

Description
Close to the fishing shelter of Kato Pyrgos, on the edge of Pigenia, lies a sizeable field where open land meets the scattered homes of the area. Undeveloped parcels all around keep the setting open and green, while the village of Kato Pyrgos is only a short drive away.

Covering 8,810 m², the land sits in a residential zone, with room for a home of up to two floors. Its frontage along a registered road gives it direct road access, a practical starting point for planning a house and the life around it.

Picture a home of your own here, set on generous ground with few neighbours close by, and with supermarkets, shops and cafés a short drive away for everyday needs. Mornings could begin with a drive down to the boats at the fishing shelter, and evenings could end back on your own land as the light fades over the open fields.

Honest, unpretentious land, with the space to shape the home you have in mind.
