For Sale : **€ 573,000**

Description
Just beyond the village of Pigenia, two adjoining fields open out in a residential setting, where undeveloped land sits alongside several residential developments. The village centre, with its cafés, shops and daily comings and goings, is a short drive away, and Kato Pyrgos is within easy reach too.

This is sizeable land in a residential zone, with room for a home of up to two floors. It has direct road access, with frontage onto a public road, so reaching it is simple.

Imagine planning a home here, with open land around you and village life close at hand: a morning coffee in the village, a meal at a local restaurant, then back to your own corner of the countryside. It is an honest, practical setting with real appeal for a life lived at a gentler, Mediterranean pace.

The sale comprises one field in full together with a 1/2 share of the adjoining field.

A generous stretch of residential land on the edge of Pigenia, where authentic Cypriot village life is never far away.
