For Sale : **€ 550,000**

Description
In the heart of Latsia's industrial area, in the Agios Georgios quarter, this field sits among established commercial and industrial premises, where trade sets the rhythm of the day and the Nicosia–Limassol motorway is within easy reach.

The land is zoned for industrial use, which gives it a clear general purpose for business. Long road frontage gives it direct road access, so vehicles can come and go straight from the road. A neighbourhood built around commerce and industry suits that purpose, and Lakatameia is only a short drive away.

For a business looking to the capital and beyond, the setting speaks for itself: a working district, with good links by motorway towards Nicosia and Limassol. A distribution agreement is in place on the land. The sale is for a 1/2 share of the field.

Industrial zoning, direct road access and a location close to the motorway come together here in one of Nicosia's busy business districts.
