Description
In the residential neighbourhood of Agios Vasileios, Strovolos, this large field is ground on which a home of your own could take shape. Homes stand all around it, with a few open parcels between them, and the everyday rhythm of an established suburb is close at hand. Its 3,008 m² form a near-rectangular shape with a smooth, flat surface. That gives you an easy, even starting point for your plans. The land fronts a local street, so it has direct road access, and water, electricity and telecommunications can be connected. Residential zoning leaves room for a home of up to two floors, and the generous plot lets you shape it around the way you want to live. Daily life stays simple here. Supermarkets and shops are within walking distance, and schools are a short drive away. A sizeable, flat piece of Strovolos among its homes and neighbours waits for the house you have in mind.
