For Sale : **€ 520,000**

Description
Close to the port of Kato Pyrgos, this sizeable field lies within a residential zone, with the village centre a short drive away. Undeveloped fields surround it, giving the land an open, green outlook within reach of village life.

The zoning gives room for a home, with up to two floors allowed. The ground slopes and the outline is irregular, so plans for a house can be shaped around the lie of the land. The land has no direct road access.

Around it, Kato Pyrgos keeps its village character, and the neighbouring villages of Pigenia and Mansoura are a short drive away. Further afield, the wider region holds the Gialia Monastery, a heritage site worth discovering.

A place to picture a future home in authentic village surroundings, with the port of Kato Pyrgos close by.
