

For Sale, Land, Field, Nicosia, Deftera Kato

Kato Deftera's village centre sits close to this large field...

For Sale : **€ 491,000**

Description
Kato Deftera's village centre sits close to this large field, with cafés, restaurants and everyday shops within walking distance. Around it, homes stand alongside open parcels of land, so the neighbourhood feels settled and residential while keeping a generous sense of space.

The land covers 7,121 m² in a residential zone, with room for a home of up to two floors. Picture it as the place where your days in Cyprus could begin: a morning coffee in the village, an unhurried stop at the local shops, then home to a setting with plenty of ground around you. Neighbouring Pano Deftera is a short drive away, as are schools for family life.

The field has no direct road access.

What stays with you is the balance it strikes: a sizeable piece of residential land, set among homes and open plots, with the life of the village centre only a walk away.
