Description
Set in Kamares, a short drive from the centre of Tala, this field covers 6,689 m² and has direct road access along one of its boundaries. The land falls within two zones. One part is agricultural, suited to farming and planting, and the other is residential, with room for a home.

Residential developments and undeveloped plots surround the land. Main roads are easy to reach, and the motorway is a drive away. Peyia is also a short drive. This is a sizeable field with both agricultural and residential zoning and its own road frontage.
