

For Sale, Land, Field, Nicosia, Pyrgos Kato

Only a short walk from the sea, a little outside the centre...

For Sale : **€ 479,000**

Description
Only a short walk from the sea, a little outside the centre of Kato Pyrgos, two adjoining fields come together as one large piece of residential land of 10,271 m². The coast is part of the setting here, and the village centre is a short drive away for everyday errands and a coffee among neighbours.

The land lies in a residential zone, with room for a home of up to two floors. Around it, a few homes already stand among parcels that are still open, giving the area a relaxed residential feel with a strong local character. Neighbouring villages such as Pigenia are close by, and the wider region holds heritage sites such as Gialia Monastery.

Imagine planning a home of your own here, with the sea moments away on foot and the village close at hand. It is a generous setting in which to shape your plans, and the closeness of the sea is what stays in the mind long after leaving.
