For Sale : **€ 475,000**

Description
Between the villages of Klirou and Kalo Chorio in the Nicosia district, this sizeable field opens onto a landscape of undeveloped parcels, where village life sits close by and the land around still feels open.

The field covers 17,065 m², with a sloping surface and an irregular outline. It lies within a residential zone, which gives room for a home of up to two floors, designed to follow the fall of the ground and settle into its setting.

Klirou's village centre, with its shops and cafés, is a short drive away, and the nature spot of Perátis is close too, for unhurried time outdoors. Further afield, the Mitsero mines lake adds another place to explore. The land has no direct road access.

A large piece of residential land in the space between two villages, with room to plan a home around the slope and the village setting.
